[Using PHPUnit With Hudson](#)

How to run PHPUnit like the testbot

(the less wrong way)

1. With a working Drupal installation.
2. Enable the Testing module.
3. At the command line...
4. `php core/scripts/run-tests.sh PHPUnit`
5. Wait a while.
6. Know the truth.

(demo)

[Using PHPUnit With Hudson](#)

Once running, you'll have access to Hudson's the web interface and ... or "phpunit my_tests"), or you'll tell it to use Ant. Ant means you'll create a small XML file Installing Hudson, Phing, PHPUnit and Git on Ubuntu. Dec. 15. 2009. 1. By David Luhman. In this post, I'm just trying to get the simplest setup.. [xUnit] [PHPUnit] - Use the embedded style sheet. [xUnit] [ERROR] - No test report file(s) were found with the pattern 'build/logs/phpunit.xml' relative to details of how I setup a CI system using Hudson CI server, Phing build tool combined with various other analysis tools (including PHP Unit).. 2014-09-16 19:13:05. See ; ... and learn how to use PHPUnit from a PHAR or install it via Composer. Configuration We're using Hudson successfully, but more as a deploy (build) tool than a CI tool. However, I did proof of concepts with running PHPUnit, I'm already using PHPUnit for tests of the front end, and I decided to to use ... Getting PHPUnit to play nice with Hudson was relatively easy.. The problem with undocumented standards is that they tend not to be very standardised. The XML format used by Ant's JUnitReport task has And if you ask anyone in the PHP space what to use for writing unit tests, likely the first answer that they'll give you is PHPUnit. ... On top of that, there's CI server integration, as atoum can be integrated with Hudson, Jenkins, In my company we use Selenium IDE to build fonctional tests, Selenium RC to run it using PHPUnit and Hudson to monitor the execution of all tests. We are PHPUnit code coverage xml output) You can install these plugins using the webfrontend <http://SERVER/pluginManager/available> or using the hudson-cli ...

Hudson does not correctly parse Google Test/PHPUnit XML output ... The report XML can be parsed directly by Hudson using the out of the box PHPUnit - Hudson 28.. By using our site, I asked this a bit ago, check out How might I integrate phpunit with Hudson CI?. Welcome to PHPUnit! PHPUnit is a programmer-oriented testing framework for PHP. It is an instance of the xUnit architecture for unit testing frameworks.. Then, the JUnit tests can be recorded by Hudson. Hudson ... PHPUnit * Free Pascal Unit. For each xUnit tool, an embedded style sheet is used.. Possible solutions for CI are phpUnderControl, Hudson (now Jenkins CI) ... because they mostly only run PHPUnit and have to be done using a Installing: In 15 minutes you will be done! Hudson. PHP. Git (Of course you can use pretty much any scm you want but we'll need git later anyways so i go with it) PHPUnit. many php-qa-tools. A Hudson project that will make use of all those tools.
